

# ADAMS TAHFEEDH UL QURAN PROGRAM

## **PROSPECTIVE STUDENTS:**

*After a student completes the required assessments, the teachers and staff will review the assessments (pronunciation of letters, reading and memorization skills, overall behavior, interest in learning Quran, study habits at home, focus level to study independently for long hours in class and willingness to receive feedback/ corrections on recitation). Additionally, the parents' understanding of Hifdh Ul Quran, level of commitment and involvement with child's studies will be taken into consideration.*

*If the child is approved, the Tahfeeth ul Quran Program will send an acceptance letter by email to the family.*

*Please Note: If a child is approved, but a seat is not available in the program, the family will be updated frequently by email to help plan enrollment accordingly. While waiting for a seat to become available, the child must continue to maintain good academic standings in Quran and follow the specific instructions provided by the program. The child will be reassessed frequently to ensure he/she is still eligible to enroll in the program. If the instructions provided by the program are not followed, the program will not accept the child in the program, (example: If you were instructed to not have child memorize any new surahs and you went ahead and had child memorize more surahs/juz without approval).*

## **PROGRAM TRACKS:**

*The Tahfeeth ul Quran Program consists of two tracks: Hifdh Preparation and Memorization Track*

*MEMORIZATION TRACK: The student will be assigned a rigorous daily recitation workload consisting of approximately 30 to 40 pages of reviews, approximately 10 to 15 pages of recent juz and the new ayats from the current surah. The student will have comprehensive testing upon memorization of 5 juz, 10 juz, 15 juz, 20 juz and whole quran.*

## **HIFDH PREPARATION TRACK:**

*All new students are initially placed in the Hifdh Preparation Class. Upon successful completion of the Hifdh Preparation track, the student will be approved to transition to the Memorization track.*

*The Hifdh Prep class is designed to provide an opportunity for the student to experience the quran memorization process and build a strong foundation for memorization success. It also provides parents an opportunity to get firsthand experience of what is expected from parents regarding time commitment and support on a daily basis to help their child have a successful hifdh journey. Additionally, it provides useful information for teachers/staff to see if the student is a good fit for the memorization track by closely monitoring academic abilities, efforts to study, overall motivation, behavior, stamina to sit for long hours, and focus level to concentrate on details related to tajweed and Quran learning.*

*Students in the Hifdh Prep track are prepared for rigorous memorization by receiving daily instructions to refine pronunciation of arabic letters, practice many pages of reading to build accuracy, fluency and consistency in tajweed application. Gradually, students will be trained to have stamina to recite with good quality half juz to all juz 30th in one sitting without losing focus, in sha'Allah.*

*The class consists of individualized time with the teacher, group learning, and individual practice time. Students are required to read the meanings of the surahs & increase Quranic Vocabulary. In the Hifdh Prep track, the students will learn how to read Quran accurately and complete at a minimum, the memorization of juz 30<sup>th</sup> with tajweed application.*

*Additionally, students will receive daily training to develop effective time management skills, improve focus levels, and develop effective study habits in class and at home. They will learn to set short-term and long-term goals for memorization and reviewing previous surahs.*

*In both tracks, students will learn the value of the Quran, the purpose of memorizing the Quran, and the importance of reciting the Quran with tajweed rules. Additionally, students learn how to respect the Quran and manners when reciting the Quran to teachers. Daily lessons will emphasize the importance of cleanliness, wudhu, praying regularly, understanding the meanings of what is being recited in prayers, establishing routine of morning and evening duas, the 5 pillars of Islam, Seerah, Hadith and Sunnah. Students learn the responsibilities of a hafidh/hafidha and learn beautiful, blessed ways to increase their love and connection to Quran and Sunnah.*

*All students will learn the importance of kindness, respect, and forgiveness. They will receive training and are expected to be obedient and considerate to parents by giving them water and comfort. Also, speaking to parents in a gentle caring way and helping with house chores. Additionally, they will be expected to be caretakers of the masjid and assigned to organize books, clean up the masjid, help elderly, take care of plants and other service-related activities to help transform righteous knowledge into righteous action.*

#### **Maintaining Enrollment in Program:**

*The student's daily performance in Quran and overall interest in learning the Quran, study habits, focus and behavior will be monitored frequently. Parents will receive comprehensive daily reports and updates. If a child is not showing progress due to:*

- frequent absences, tardies, lack of motivation, lack of efforts, lack of parent support, lack of involvement with child's homework, student/family not following directions and plans as set forth by teacher, adding new memorization without approval, un-satisfactory performance on tests or unable to bear the work-load to maintain and apply tajweed with reviews and daily work, disobedience to parents/teachers, dishonesty, arguing, fighting, engaging in any harmful actions or being a negative role model in any way shape or form during or outside of school, the family will be informed and parent/teacher meetings will be held and specific changes/progress must be shown by student in order to continue in the program.*

*Students who are not eligible to continue in the program will be highly encouraged to enroll in evenings/weekend Quran Classes or consider memorization with independent online or in-person tutors at home at a pace that will be more suitable for the child.*

**School Year:** *The Tahfeeth ul Quran Program school year begins in September and ends in August. The classes typically begin the day after Labor Day and end in mid-August with holidays for Thanksgiving, Winter Break, Eid Celebrations, Memorial Day & Independence Day. We advise families to plan trips during the scheduled holidays to avoid absences and delays in hifdh completion.*

*May Allah accept your intentions, efforts, and duas. Ameen.*
